

A promotional image for the movie Avengers: Endgame. It features the three main characters: Hawkeye on the left, Captain America in the center, and Iron Man on the right. They are standing in front of a dark, smoky background with a large, faint outline of Thanos in the background. The text 'ai FuturEd' is overlaid in the center, with two white starburst graphics above the 'i' and 'F'.

**ai  
FuturEd**

# Problems on education

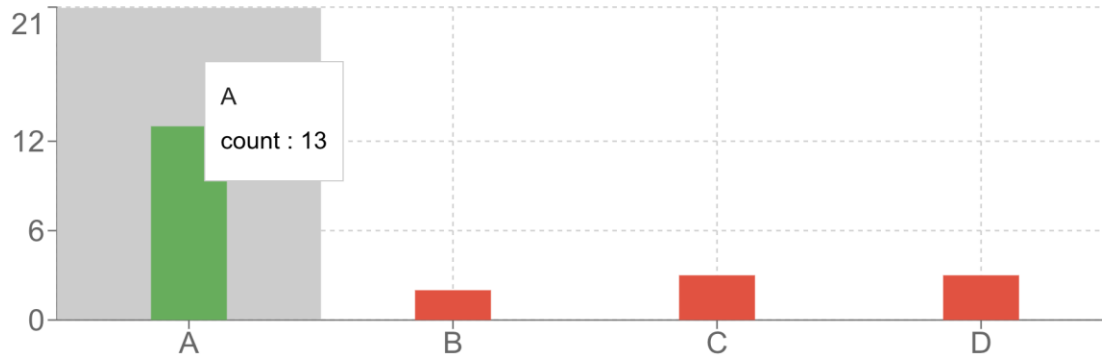

---

- Professors often lack insight into how their lectures are perceived and understood
- Students have limited, often delayed, ways to share meaningful feedback on each lecture
- No efficient mechanism for professors to analyze and act on student feedback to improve future lectures

What is the approximate size of the corpus on which GPT-3 was pre-trained?

Total Answers: 21 | Correct: 13 | Accuracy: 62%

Answer Options:

A: 45 terabytes ✓ Correct

B: 175 billion bytes

C: 1 petabyte

# Our solution

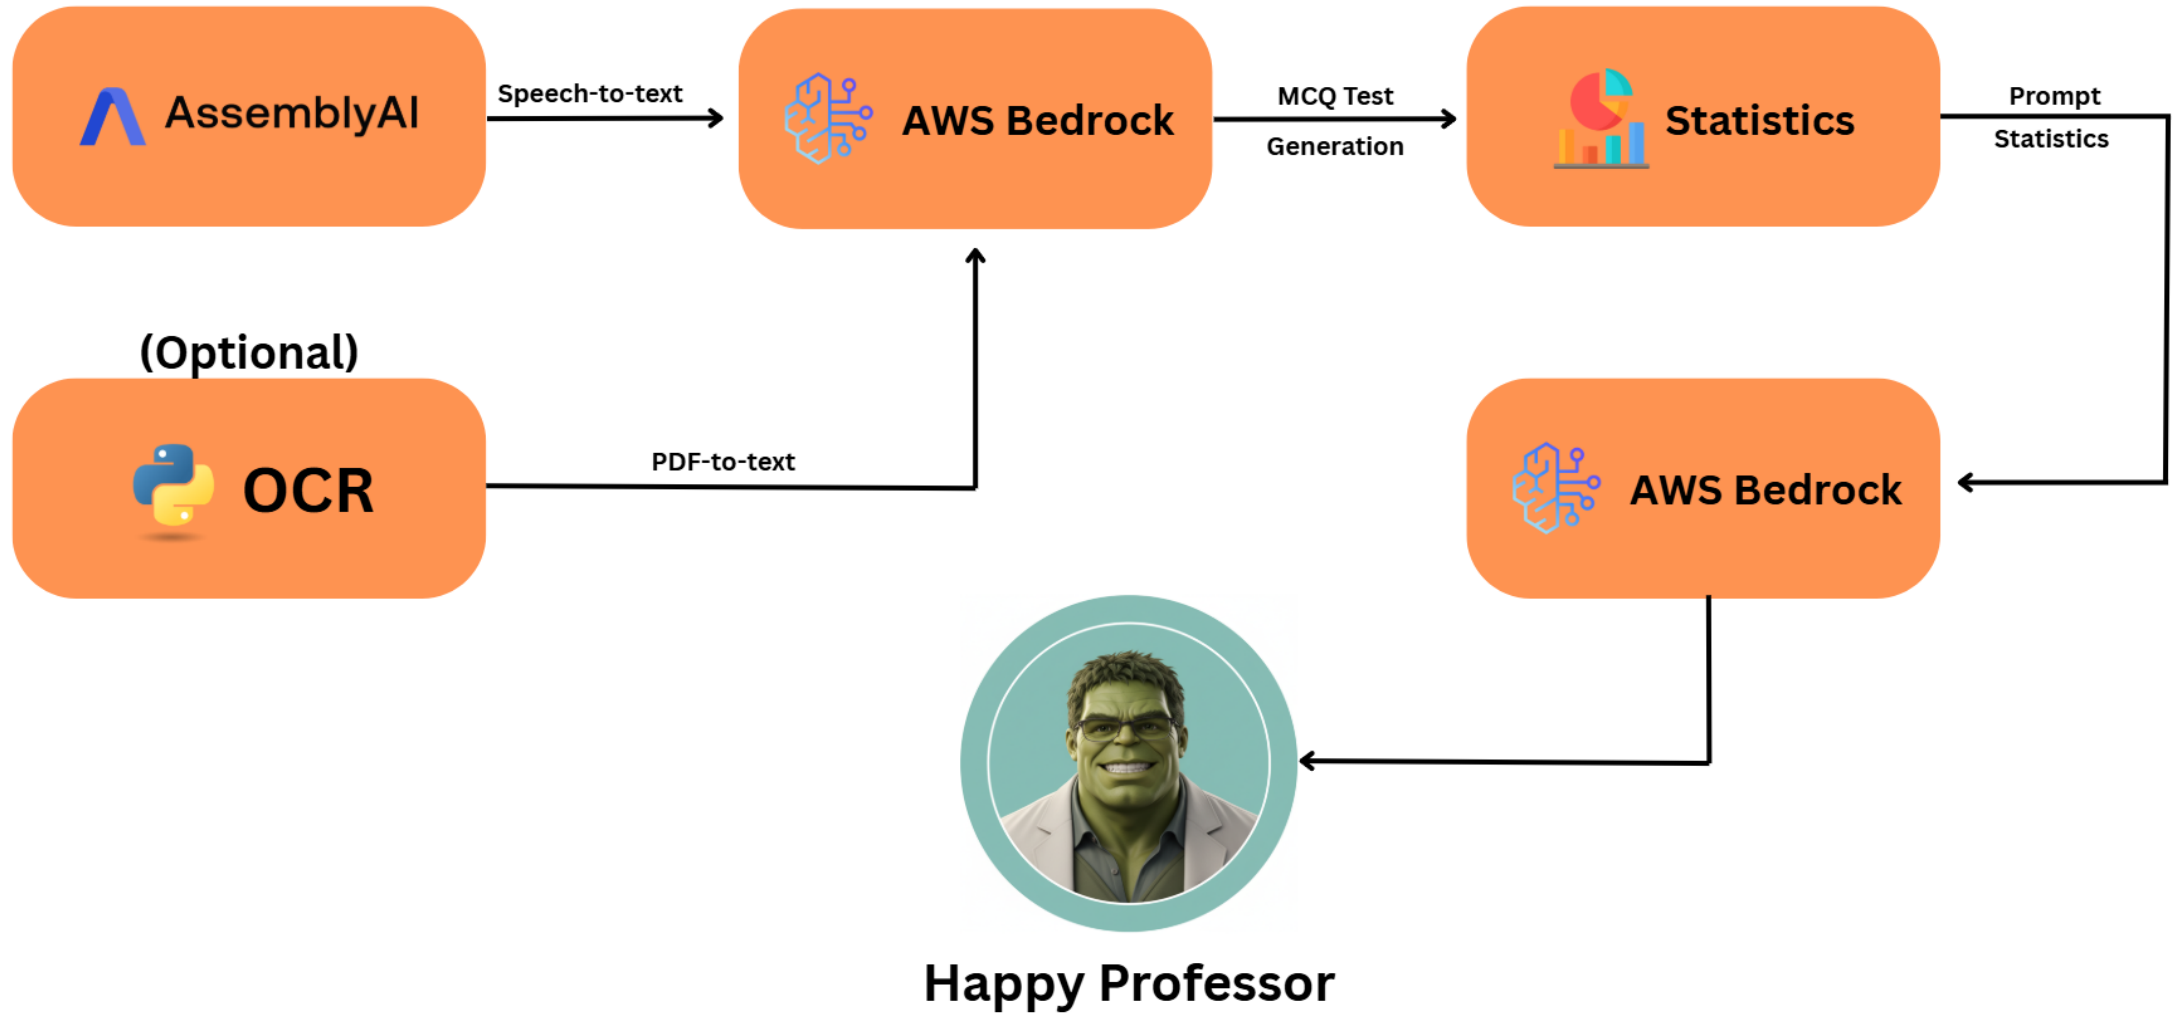

Short, lecture-specific multiple-choice tests after each session to evaluate student understanding

Key performance statistics from these tests are shared with the professor

Actionable suggestions provided to help professors improve future lectures

# Solution pipeline

# Impact on education

- Enhances learning outcomes by helping professors adapt lectures to student needs.
- Empowers students to actively participate in shaping the teaching process through timely feedback.
- Continuous improvement in teaching quality by providing insights from data-driven analysis.
